 - b. Elementary
Received a copy of the final report. See scanned attachment. Received update on this year's spending. See attachment. About half of the funds have been spent – mainly on new computers and the software subscriptions.
4. Final report Status: Completed and posted. See update from Principals notes and attachments
5. SRS? Funds – may be lost – someone needs to sponsor the bill? Talk to Commissioner Taylor.
These are not trust land funds but a separate funds that are used in the district school budget. The district could lose over \$500K if the bill is not sponsored by December 7th.
Lance will draft a form letter and email that includes points of contacts for our congressmen and send to Principals for review. Once reviewed he will send to community council members and we'll send for posting on the school websites, to other school contacts as well as PTA members. We will plan to do a calling tree to let parents know the form letter and contact info is on the websites and see if we can get letters sent to Congress and get the bill sponsored. First email/call tree before Thanksgiving with a follow up somewhere between Nov 30th and December 4th.
6. Next Meeting: January 8th

Motion to adjourn made by Carey, April seconded.
